Important changes are coming regarding your health care. Soon, you will have a chance to choose a new plan for your health care benefits. Kenosha, Racine and Waukesha County residents who receive SSI or SSI related Medicaid and are 19 years of age and older may be able to get their health care benefits through a managed care organization.

What are some of the benefits of this program?

This program covers all of the same health care services as regular Medicaid. Other benefits of being in a managed care organization include:

- Health Care coordinators who will make sure you get the care you need by working with your doctors.
- Health care services available 24 hours a day, seven days a week.
- Help finding primary and specialty doctors for you.
- Help setting up transportation to medical appointments.

Public Information Session
